The air today feels just right– amazing temperature, ideal humidity, and freshness – like right after it rains. But what makes it even better is that this ideal air is happening indoors. Inside your space. Inside, where we spend most of our time – working, playing, sleeping, living.

At Daikin, we're committed to making the air inside just as refreshing as the air outside. With Daikin efficiency, quality, and control, you can create your own ideal indoor environment. So, every day feels perfect, inside, and out. **Inside and out.**

Perfecting The Air We Share.

At Daikin, comfort is just the beginning.

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that help use energy resources more effectively. Heat pumps extract or reject heat from the outside air, even in cold weather. They use an electrically powered compressor and are extremely effective at heating and cooling an apartment or a house. Daikin heat pumps are quiet and discreet, and use state-of-the-art technology to keep your energy bills low. With a Daikin heat pump, a large portion of the energy used to heat or cool your home comes from the outside air, a free and infinitely renewable resource.

WHERE COMFORT MEETS INNOVATION.

Daikin is a global leader of indoor comfort solutions with millions of systems installed throughout the world. Daikin has been improving the comfort of its customers with exceptional products and services for many generations. As a company whose core business is that of heating and cooling homes and buildings, Daikin takes particular focus on the air you live in.

Air is essential to our existence and Daikin's role and responsibility in protecting it continues to expand. Daikin is devoted, with unbridled passion, to overcoming the ever-evolving challenges of the air around us. Leveraging our leading, cutting edge technologies with a holistic focus on performance, reliability, design, aesthetics, indoor air environment, ease of use and efficiency, we create outstanding products and system solutions to realize a comfortable and sustainable living environment for all people and all regions of the world.

This is *Perfecting The Air We Share*, and this is what Daikin is all about.

The opportunity to experience Daikin's advanced technologies and solutions is now more accessible than ever before. Cementing our corporate mission of being "globally-local", Daikin has invested over $400 million in our state of the art production facility on the outskirts of Houston, TX. The Daikin Texas Technology Park is a sprawling campus covering more than 4 million sq. ft. with more than 4,000+ personnel. The facility practices Daikin's philosophy of a full 360 degree focus to research and development, manufacturing quality and reliability, robust sales networks and extensive support infrastructure.

BE SURE TO WATCH OUR DAIKIN INTRODUCTION VIDEO ON YOUTUBE!

www.youtube.com/user/DaikinComfort

Daikin prides itself on its **specialized focus to heating and cooling** and extends this pride to a meticulous **commitment** to the design, operation, performance and reliability of all its systems and solutions, including the key components inside those systems. Daikin designs and manufactures many of the components that make up our systems — including the heat exchangers, coils, sheet metal parts, fan blades, and the heart of the system — the **Inverter-driven, variable-speed compressor*.**

*On select models.

Efficient and dependable compressors for worry-free comfort

Daikin's variable-speed Inverter compressor* technology is currently providing energy efficient indoor comfort with over 50 million units installed worldwide. This proven technology automatically adjusts the performance of the system's compressor to match the demand needed to achieve the temperature you have selected on the thermostat. It is like having cruise control for your home's indoor comfort. Precise adjustments are being made automatically with the goal of providing consistent comfort at exceptionally low levels of energy consumption. Compare this to a single speed compressor and immediately you'll see the benefits of the Inverter technology compressor. Daikin designs, engineers, and manufactures its own variable-speed Inverter compressors. Rest assured that you are getting a proven design — you are getting Daikin Inside.

Elevate your expectations and get more out of your home's indoor comfort system performance

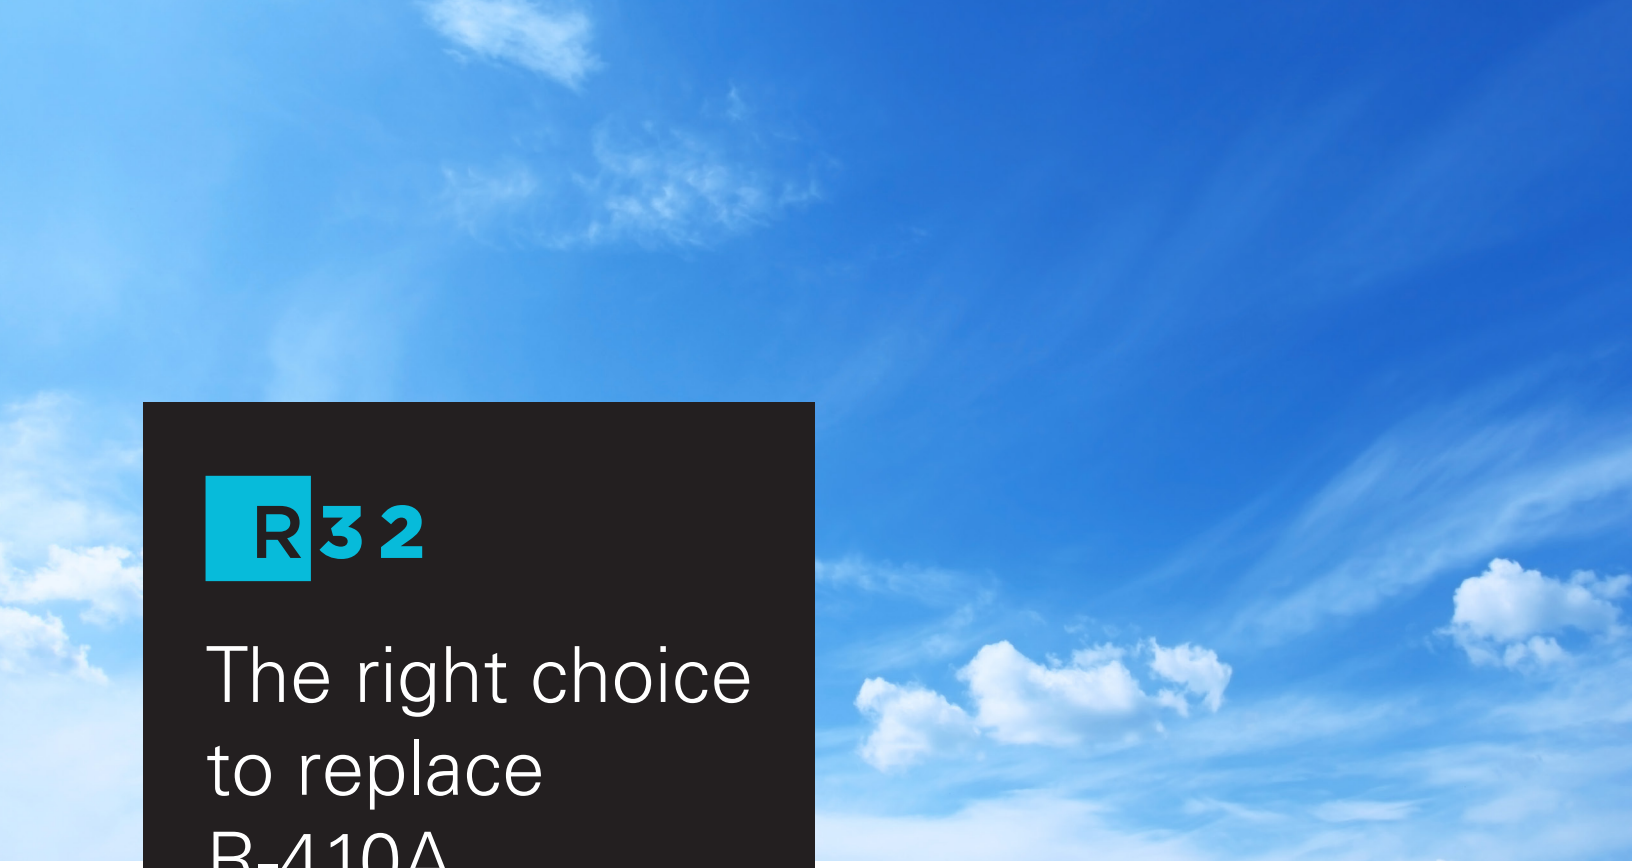

As you think about the functionality of your home's indoor comfort system, the Daikin portfolio of solutions is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step further by considering a state of the art Daikin brand variable-speed, energy-efficient system. We have designed and engineered all of our products to provide years of consistent indoor comfort — delivering you and your family the type of comfort you never thought possible.

Bold performance

A better understanding of how people inhabit their living spaces and make lifestyle choices has led to products designed to create indoor environments that help use energy resources effectively.

A Daikin air conditioner with a variable-speed compressor provides efficient and economical cooling performance. Enhance the efficiency of your system year round by combining your Daikin air conditioner with a Daikin cooling coil and high-efficiency gas furnace for the cold winter months. For replacement or new construction, a Daikin system will provide efficient comfort to your family for years to come.

R32

The right choice to replace R-410A.

Proven. Easy. Available. Efficient.

Step into the future of home comfort with Daikin's line of residential products. As a global leader in air conditioning, Daikin is committed to innovation that enhances your home comfort with the use of low global warming potential (GWP) R-32 refrigerant. Our new R-32 products have been designed to meet efficiency, reliability, and comfort needs, while helping reduce impact on the environment with a lower GWP refrigerant compared to R-410A.

- **Innovation:** With R-32's lower global warming potential (compared to previous R-410A) you can reduce your impact on the environment while enjoying outstanding cooling and heating at home.
- **Efficiency:** Daikin's use of R-32 refrigerant and our game-changing inverter technology provides overall energy efficiency, leading to low utility bills and energy consumption.
- **Durability:** Daikin's legacy of over 100 years ensures each product is built to last, delivering reliable performance and comfort year after year.
- **Intelligent:** Many Daikin systems integrate with smart home technologies, making it easy to control and optimize your home's climate. Additionally, for homeowners who want to step their indoor comfort up even more, ask about the Daikin systems that connect to the Daikin *ONE* thermostats, Skyport Cloud, and how to address other indoor air quality concerns.
- **Peace of Mind:** Confident in our quality, Daikin offers robust limited warranties*, ensuring your investment brings long-term comfort and peace of mind.

Aligning with Goals of:

- **Lower GWP refrigerant — reduce impact at the source:** Utilizing a refrigerant with lower Global Warming Potential (GWP) compared to conventional refrigerants, like R-410A.
- **Sustainability:** Easy to top off, or clean and reuse on-site and easy to reclaim and recycle.

* Complete warranty details are available from your local dealer/contractor or at www.daikincomfort.com

Comfort-enhancing features that help deliver ideal comfort

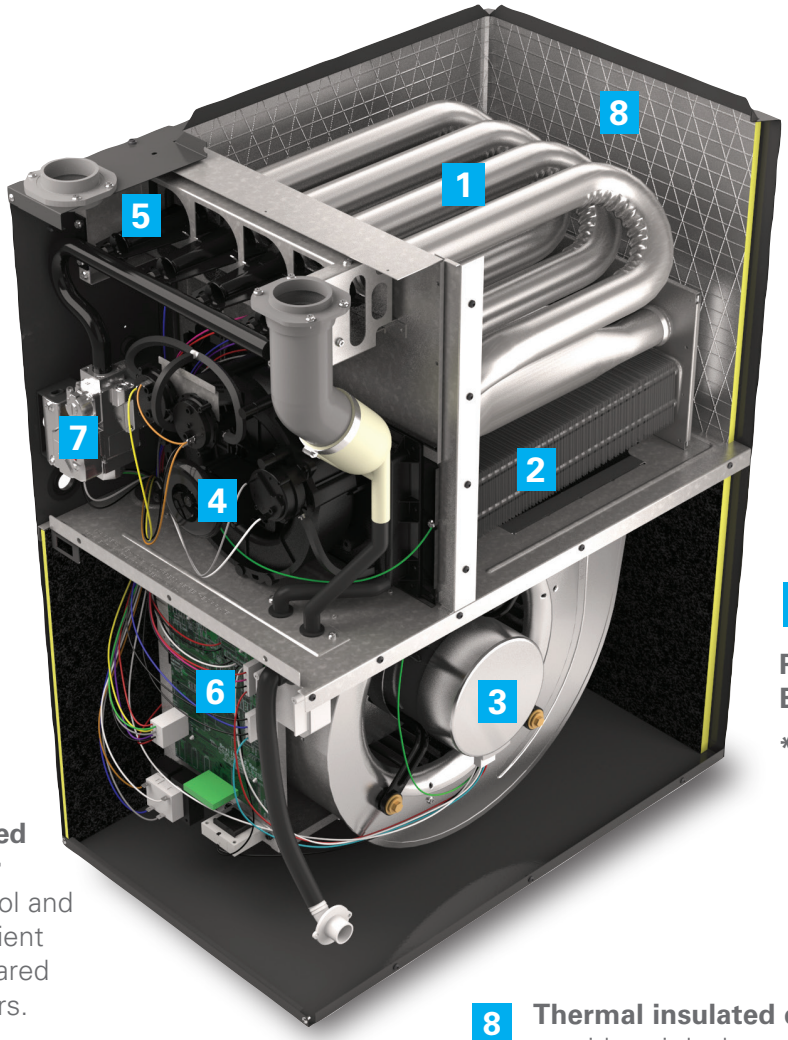

PREMIUM 90+% UPFLOW/DOWNFLOW FEATURES*

1 **Primary tubular stainless – steel heat exchanger** for outstanding durability and heat transfer.

2 **Secondary stainless – steel heat exchanger** for increased efficiency and additional comfort as compared to models with only a primary heat exchanger.

3 **Efficient and quiet variable – speed motor** gently ramps up or down according to furnace performance demand.

4 **Quiet, variable – speed induced draft blower** provides precise control and enhanced energy-efficient performance as compared to single speed blowers.

5 **Durable silicon nitride igniter** eliminates the need for an energy – wasting pilot light.

6 **Self-diagnostic control board** continuously monitors the system for consistent, reliable operation.

7 **Premium High-Efficiency gas valve***

* Modulating models include self-calibrating valves.

8 **Thermal insulated cabinet** provides air leakage of less than 2% to maximize heat transfer efficiency and limit blower noise.

* Some features/technology vary by model.

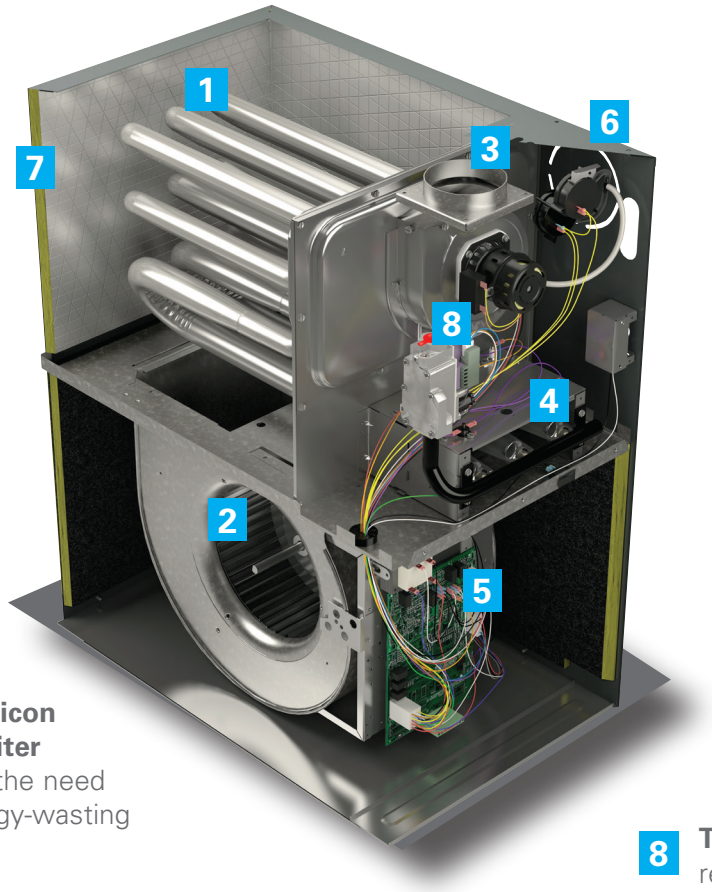

PREMIUM 80% UPFLOW/DOWNFLOW FEATURES*

1 **Primary tubular stainless-steel heat exchanger** for outstanding durability and heat transfer.

2 **Efficient and quiet variable-speed motor** gently ramps up or down according to furnace performance demand.

3 **Quiet, variable-speed induced draft blower** provides precise control and enhanced energy-efficient performance as compared to single speed blowers.

4 **Durable silicon nitride igniter** eliminates the need for an energy-wasting pilot light.

5 **Self-diagnostic control board** continuously monitors the system for consistent, reliable operation.

6 **Heavy-gauge steel cabinet** with durable baked-enamel finish resists corrosion and protects essential components.

7 **Thermally insulated cabinet –** The fully-insulated cabinet means air leakage of less than 2% to maximize heat transfer efficiency and limit blower noise.

8 **Two-stage gas valve** reduces energy needed during moderate demand to deliver outstanding comfort and efficiency as compared to single stage gas valves.

* Some features/technology vary by model.

[1] The duration of warranty coverage for equipment installed at non-owner occupied residences or commercial buildings differs. Please refer to complete warranty for details.

Daikin *ONE* Home Air Monitor

Detect:

» The Daikin *ONE* home air monitor will monitor and learn baseline air quality in the home, over 7 days, then provide a rolling 7-day average baseline.

» When potential particulate and/or chemical events occur outside of this average baseline, the system can detect the potential deviation and send alerts to the Daikin *ONE*+ smart thermostat.

Visualize:

» From the Daikin *ONE*+ smart thermostat, visualize the estimated indoor air quality in real-time directly on the thermostat or through the smartphone app.

» Indoor Air Quality Event Monitor – from this option, see when monitored particles or chemicals are elevated compared to the 7-day baseline* to help to understand and control your indoor air quality.

The 7-day baseline* readings will include:

- **Green** - typical concentrations in the home
- **Yellow** - elevated concentrations in the home
- **Orange** - very elevated concentrations in the home

Act:

» With built-in *Air Intelligence*, the Daikin *ONE* home air monitor and Daikin *ONE* ecosystem provide adaptive solutions homeowners advance through their Daikin *ONE*+ smart thermostat based on air quality alerts.

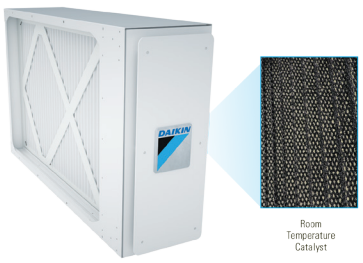

» Turn on the furnace or air handler to increase filtration through the high-efficiency Daikin *ONE* premium air cleaner to address particles.

» Turn on exhaust/ventilation or open a window to help reduce detected chemicals within the home.

* The Daikin Indoor Air Quality Event monitor readings are based on the sensor readings during your home's 7-day baseline range.

Daikin *ONE* Premium Air Cleaner

The Daikin *ONE* Premium Air Cleaner is an in-line air cleaner that treats home air for certain airborne particulate matter and chemicals found in the home.

» Intuitively designed with outer dimensions that match original equipment furnace and air handler cabinets for quick installation.

» Magnetic door design ensures tool-less, easy access to filter components for quick and easy filter changes.

» Insulated cabinet to reduce risk of condensation.

» Designed for multi-position horizontal or vertical installations.

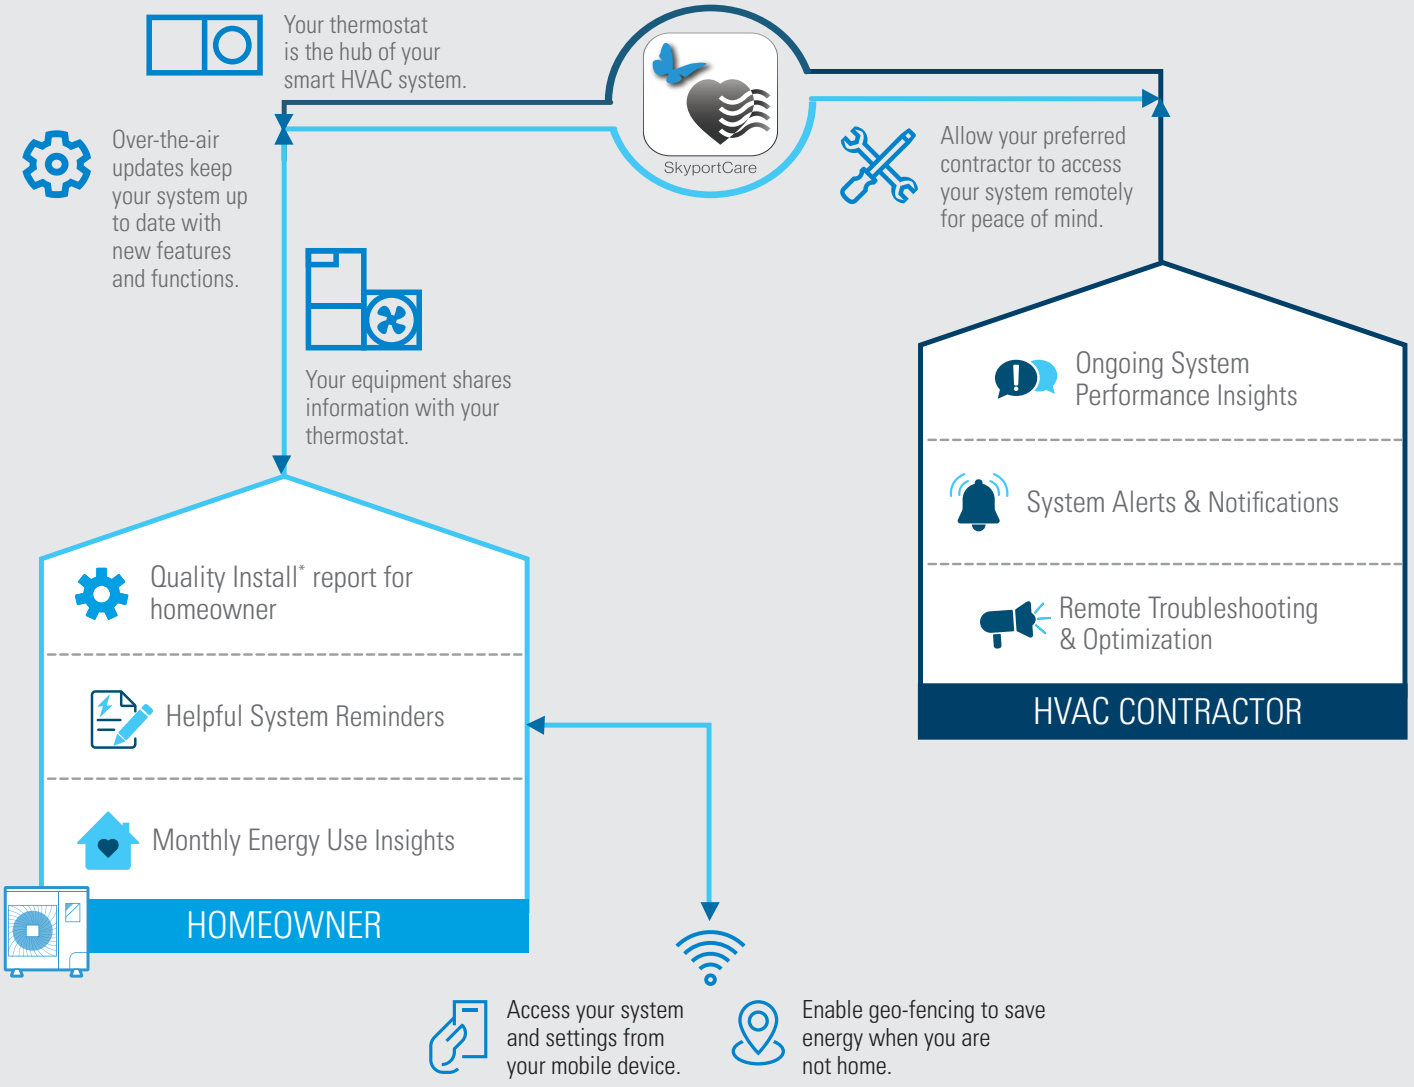

» Filter frame designed with dual pull tabs for easy removal.

» All cabinet mounting holes are slotted and designed to lineup with original equipment flanges for timesaving installation.

SkyportCare

CONNECTED with *SkyportCare*

SkyportCare creates a digital connection between your Daikin heating, ventilation, and air conditioning (HVAC) system and your servicing contractor. You can enjoy peace of mind not only from verification of system installation* but from a 24/7 – 365 connection to Daikin Comfort Technologies cloud**. With *SkyportCare* access, your servicing contractor has access to system health alerts, performance insights, diagnostics, and even remote access to your system(s) settings – with your approval. Unlock the benefits and peace of mind of a connected heating and cooling system today.

* *Quality Install* verifies system installation of Daikin unitary inverter products

** Requires continuous internet connection

Products are nothing without the right contractors to support them

"I'm a Daikin *Comfort Pro*"

Those five simple words can offer you comfort like you've never experienced. The words mean that the contractor you invited into your home is a highly-qualified and continuously-trained professional who will quickly, efficiently and effectively help to solve any of your indoor comfort needs.

All Daikin *Comfort Pro* contractors seek to achieve the highest levels of customer service, business integrity, and technical competency. These range from maintaining an excellent rating with their local Better Business Bureau (BBB) to taking continuing education classes on how best to install and service Daikin brand products. To retain this status, Daikin *Comfort Pros* must deliver their best abilities to each and every customer, year after year.

A commitment to your comfort

Daikin *Comfort Pros* believe that a well-informed homeowner is the best possible customer. All *Comfort Pros* will take the time to help understand your unique comfort needs, assess the performance of your current indoor comfort system, and thoroughly discuss all options with you.

A commitment to provide you the right service and products

Daikin *Comfort Pros* have access to one of the most complete lines of indoor comfort products and systems available. As a leading manufacturer of HVAC equipment, Daikin offers you a full line of comfort solutions that ensures that a Daikin *Comfort Pro* can provide the perfect solution to your home.

A commitment to serve you over the long term

Daikin *Comfort Pros* want to earn your business. They want to be your long-term provider for all your indoor comfort needs. To help deliver on this commitment, you can take peace of mind with the limited warranty* coverage offered on your Daikin brand indoor comfort product. The Daikin *Comfort Pro* has access to Daikin's outstanding limited warranty* programs.

*Complete warranty details available from your local dealer/contractor or at www.daikincomfort.com.

If, for any reason, the Daikin *Comfort Pro* has not met your expectations within one year of your equipment or system installation, please contact the installing Daikin *Comfort Pro* who installed your system and ask them to honor the Daikin Comfort Promise.

As part of formally maintaining the Daikin *Comfort Pro* distinction, the Daikin *Comfort Pro* will make all reasonable efforts to resolve any concerns you have within one year of your equipment installation with no additional labor charges. If a Daikin Comfort Professional does not meet your expectations, they risk losing the ability to sell Daikin products. With the Daikin Comfort Promise, you can have peace of mind that your Daikin *Comfort Pro* will continue to earn your business well after the installation.

Add further peace of mind with our comprehensive options for extended warranty.

Asure EXTENDED SERVICE PLAN

Daikin understands that you expect to enjoy years of uninterrupted service from your home comfort system. By including an *ASURE* Extended Service Plan you can have peace of mind knowing you won't be faced with unexpected repair or part replacement costs for your heating and air conditioning system. For only pennies a day, your can be protected from the unplanned cost of a service call and from the increasing cost of service over the life of your equipment.

- No unexpected repair bills
- Prompt service provided by an authorized *ASURE* contractor
- All repairs performed with Daikin brand replacement parts
- No pre-authorization required

These benefits mean that you can count on staying cool in the summer and warm in the winter — an AFFORDABLE benefit that adds VALUE over the life of your home comfort product.

Contact your local Daikin sales representative or local contractor for more information on current extended service plans that are available to you.

WARNINGS:

- Always use a licensed installer or contractor to install this product. Do not try to install the product yourself. Improper installation can result in water or refrigerant leakage, electrical shock, fire, or explosion.
- Use only those parts and accessories supplied or specified by Daikin. Ask a licensed contractor to install those parts and accessories. Use of unauthorized parts and accessories or improper installation of parts and accessories can result in water or refrigerant leakage, electrical shock, fire, or explosion.
- Read the Product Manual carefully before using this product. The Product Manuals provide important safety instructions and warnings. Be sure to follow these instructions and warnings.
- For any inquiries, contact your local Daikin sales office.
