

Goliath FURNACE RISERS

The Strongest, Most Durable Furnace Riser Kits Available

Goliath Furnace Risers (GFR) are the perfect solution for any furnace installation. GFRs raise furnaces providing the necessary clearance to accommodate piping and p-traps. Available in three sizes, GFR 28x6, GFR 23x4 and GFR 23x7 to accommodate a variety of furnace installation needs. Installation is quick and easy, the GFRs are made to fit either lengthwise or width wise in our Titan pans or fabricated metal pans. DexElar® material is 10X stronger than competing metal risers.

Goliath Furnace Riser shown with Titan Secondary Drain Pan

Key Features

- Constructed of DexElar®, the same durable material as Goliath and Titan HVAC secondary drain pans.
- Will not rust or crack and provide 10x the strength as metal risers.
- Compatible with our Titan secondary drain pans, metal pans or can be used as a standalone.
- Available vibration isolators quiet noisy furnace units.

GOLIATH FURNACE RISERS				
PRODUCT	MODEL	OUTER (MAX) DIMENSION		
CODE #		"L" LENGTH	"W" WIDTH	"D" DEPTH
96254	GFR 28x6	28.5"	7.5"	6.0"
96250	GFR 23x4	22.5"	5.75"	3.625"
96252	GFR 23x7	22.5"	5.75"	6.50"
