

The new Nest Cam

See your home on your phone.
Get alerts that matter.

Meet Nest Cam.

Nest Cam helps you keep an eye on what matters to you. It looks for motion and listens for sound. And if something's up, it sends an alert to your phone.

How does it work?

Easy 60-second setup.

Just plug it in, download the Nest app and set it up from your Android or iOS device.

Get alerts on your phone.

Nest Cam tells you if there's motion or sound in your home while you're gone.

No light? No problem.

Keep an eye on things around the clock. With Night Vision, you can see in the dark.

Find out what you missed.

Continuously record up to 30 days of video in the cloud with a Nest Aware subscription.

See your home in HD.

Securely stream 1080p HD video to your phone, tablet or laptop.

Talk and listen.

Hear when the baby wakes up. Or tell your dog to get off the couch.

Zoom and enhance.

See the whole room at once, or zoom in to see something up close with Nest Cam's 8x digital zoom.

Bank-level security.

Your home – and video – should be private. So Nest Cam uses security with 128-bit SSL encryption.
