# VRV: The Components

## Condensing units

### Air-Cooled Condensers

**VRV III-S**

Heat Pump

3 and 4-Ton  
208-230V/60Hz/1ph

**VRV III**

Heat Pump or  
Heat Recovery

6 to 16-Ton  
208-230V/60Hz/3ph or  
460V/60Hz/3ph

### Water-Cooled Condenser

**VRV-WIII**

Heat Pump or  
Heat Recovery

6 to 21-Ton  
208-230V/60Hz/3ph

### REFNET®

REFNET joints distribute an equal flow of refrigerant in every branch of the piping network.

A BSVQ changeover box is necessary for heat recovery applications.

## Controls

Manager III**

**Intelligent  
Controller**

**LONWORKS**

**LonWorks® Networks  
Compatible Interface**

- Interface for LonWorks networks
- Communication via LON protocol (twisted pair wire)
- 64 units connectable per interface
- Unlimited site size
- Quick, easy installation

**BACnet®**

**Integrated control system connecting VRV system with Building Management system**

- Interface for BMS system
- Communication via BACnet® protocol (BACnet/IP)
- 256 units connectable per BACnet® gateway (with DAM411B51)
- Unlimited site size
- Quick, easy installation

**IMP-128/256/512/768/1,024**

- 1,024 indoor units (organized in up to 200 control groups)
- Management of AC units and ancillary equipment
- Operation on one master PC and one sub PC (sub PC option)
- Remote monitoring via the Web
- Alarm e-mail function

**DCS601C71**

- 64 groups (128 indoor units) connectable
- Management of AC units and ancillary equipment
- Touch screen display
- Built-in Ethernet port, Web enabled (optional)
- Alarm e-mail function

# Vertical Air Handling Unit

## FXTQ\_PAVJU

**Concealed. Powerful. Compact. Comfortable.**

The upflow or horizontal (RHS) air handling unit is designed for use with all Daikin VRV® systems allowing more flexibility and combination possibilities. Ranging from 1 to 4 1/2 tons, the vertical air handling\* unit by Daikin will take your next installation above and beyond your expectations.

\*Horizontal right configuration is possible

Outside air integration possible

### Electric heater options

Model Name	Electrical heater capacity						
	3kW	5kW	6kW	8kW	10kW	15kW	20kW
FXTQ12PAVJU	■	■	×	×	×	×	×
FXTQ18PAVJU	●	■	■	×	×	×	×
FXTQ24PAVJU	●	■	■	■	■	×	×
FXTQ30PAVJU	●	●	■	■	■	×	×
FXTQ36PAVJU	●	●	■	■	■	×	×
FXTQ42PAVJU	●	●	●	●	■	■	×
FXTQ48PAVJU	●	●	●	●	■	■	■
FXTQ54PAVJU	●	●	●	●	■	■	■

● Electric heater operation with heat pump is allowed    × Not allowed  
 ■ Only electric heater operation is allowed    ◆ Acceptable 2 step heating operation

The FXTQ\_PAVJU represents an improvement in Electric Heater options and control logic versus previous units:

- Wide line up of electric heat (field installed) options from 3kW to 20kW
- Integrated KRP1 function to minimize cost
- Electric heater operation in combination with heat pump operation (boost) is now possible
- Reduced operational deadband

A field supplied and installed Ground Fault Circuit Interrupter is required when utilizing the electric heat option

### Features and Benefits

- Reduced installation time with integrated Electronic Expansion Valve and Printed Circuit Boards
- Improved application flexibility with the ability to mix and match with other Daikin indoor units on the same system
- Wider application range with dual voltage 208-230V/1ph/60Hz power supply
- Reduced piping cost with smaller piping diameters
- Only up flow and horizontal right installation is permitted
- Improved user comfort with 2 selectable fan speeds (H and L)
- New fan "Auto" logic allowing the unit to be commissioned where the fan operation will cycle on and off with the load
- The ECM fan motor as standard contributes to the increase in energy efficiency, reduction in sound and increased ESP (up to 0.5" W.G.)
- Ideal replacement for fan coils, vertical stacks or PTACs
- Replacement for geothermal heat pump and traditional split systems
- New construction or replacement

### Application

- Offices
- Hotels
- Multi-family residences
- Single family residences

## FXTQ Installation Space

# DC Ducted Concealed Ceiling Unit (medium static)

## FXMQ\_PVJU

**Concealed. Quiet. Compact. Comfortable.**

For small to large well-populated spaces in need of a concealed air-conditioning system, you can count on our ceiling mounted ducted unit. This extremely powerful unit's compact design allows it to be completely concealed – and it's perfect for offices, restaurants, shops or even hotel ballrooms.

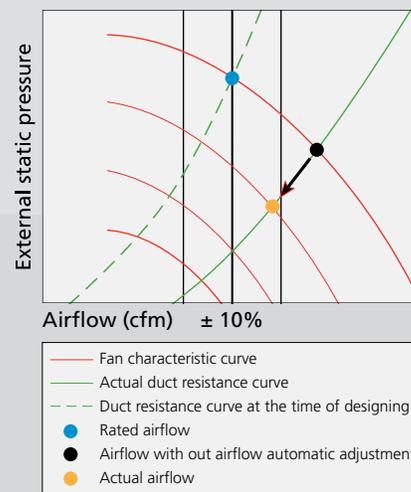

Outside air integration possible

Condensate pump as standard

### Auto adjust External Static Pressure

- After installation, it is possible the actual duct resistance is lower than expected at the time of designing. As a consequence, the air flow will be too high.
- With the automatic air flow adjustment function the unit can adapt its fan speed to a lower curve, so the air flow decreases.
- The air flow will always be within 10% of the rated air flow because of the amount of possible fan curves (more than 8 fan curves available per model).
- Alternatively the installer can manually select a fan curve with the wired remote control.

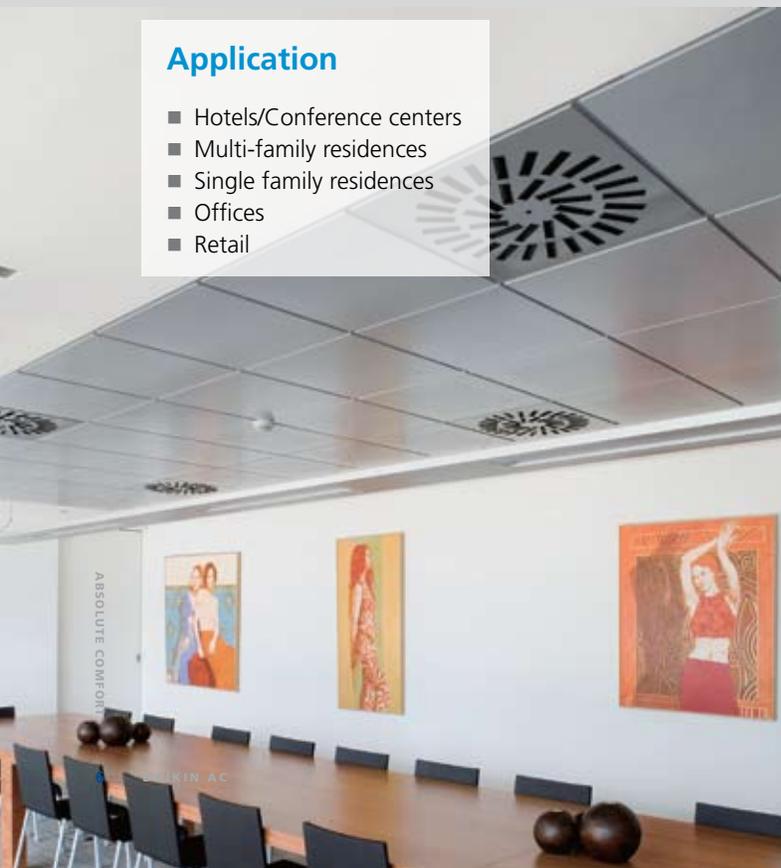

### Application

- Hotels/Conference centers
- Multi-family residences
- Single family residences
- Offices
- Retail

### Features and Benefits

- New ducted indoor unit designed to unify the FXSQ and FXMQ range with the best features taken from both units
- Available from 7.5 MBH to 48 MBH
- Improved efficiency with our new DC fan motor
- Auto adjusting airflow at commissioning based on ESP
- Medium ESP capabilities of up to 0.8" W.G.
- Three user selected fan speeds available plus fan "Auto" logic
- Low profile design – less than 12" high
- Built-in condensate pump
- Indoor Air Quality options include filters (MERV 8 and 13) and UV Air Cleaner Module
- Service access from below

## FXMQ\_P Installation Space

# Concealed Ceiling Unit (medium static)

## FXMQ\_MVJU

### Concealed. Slim design. Strong. Comfortable.

The new FXMQ\_MVJU ducted fan coil unit is ideal for larger open space floor plans usually found in offices, retails, hotels or education facilities. It is a perfect addition to Daikin's line up of ducted units that performs well across multiple spaces that can benefit from the same mode of operation, limiting equipment and installation cost.

Outside air integration possible

### Features and Benefits

- Greater design flexibility with a capacity range extended to 96 MBH
- Improved ductwork and filtration flexibility with high CFM and ESP capabilities of up to 1.1" W.G.
- Low profile design of less than 19" high to reduce required installation space
- Built-in condensate float switch (condensate pump is not included)

### Application

- Hotel/Conference centers
- Schools
- Retail/Shopping centers
- Large open plan offices
- Churches

## FXMQ\_M Installation Space

# Slim Duct Built-In Concealed Ceiling Unit

## FXDQ\_MVJU

### Concealed. Slim. Quiet. Comfortable

The slim duct built-in concealed unit is available for use with the VRV systems to complement the existing concealed ceiling unit options (FXMQ). With its low profile and low sound level this unit can be installed into limited ceiling void, bulkhead or soffit space.

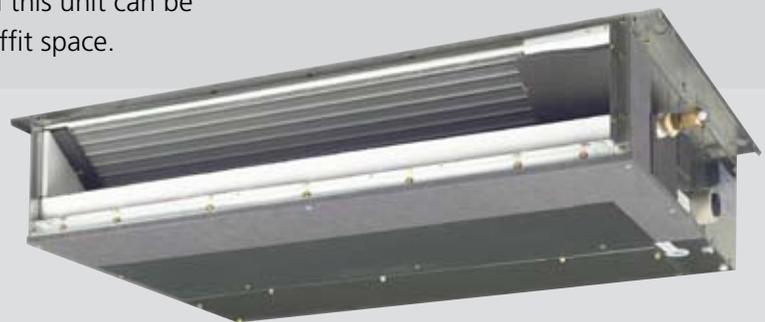

Condensate pump as standard

Outside air integration possible

Filter included

### Application

- Hotel rooms
- Multi-family residences
- Single family residences
- School dormitories
- Retail

### Features and Benefits

- Slim height, at only 7 7/8", makes it suitable for most of the applications where attic / bulkhead space is limited
- With a sound level as low as 29 dB(A) for the 7.5, 9 or 12 MBH indoor unit, these units are among the quietest on the market
- Factory set rear suction; bottom suction is possible to reverse
- Washable filter included
- Condensate pump with vertical lift of up to 21 5/8" included as standard
- Blends unobtrusively with any interior decor; only the suction and discharge grills are visible
- Medium static pressure facilitates unit use with flexible ducts of varying length

Filter Media Replacement	APRFFXDQ070912F	APRFFXDQ070912F	APRFFXDQ070912F	APRFFXDQ18F	APRFFXDQ24F

\* Optional face plates available to provide a more intuitive user interface and disable specific functions

## FXDQ Installation Space

Choose an installation site that ensures both optimum air distribution and sufficient clearance for maintenance.

The return air inlet can be easily changed from rear to bottom using the same chamber lid.

# Round Flow Ceiling-Mounted Cassette

## FXFQ\_PVJU

For use with:

*VRV III VRV-WIII VRV-III-S*

**Quiet. Elegant. Customizable. Low-maintenance. Comfortable.**

The Round Flow cassette is ideal for open plan applications such as classrooms and offices where variances in temperature and airflow can cause discomfort. With 23 configurable airflow distribution patterns, it can also be effective in smaller, more intricate spaces too.

Condensate pump as standard

Outside air integration possible

Filter included

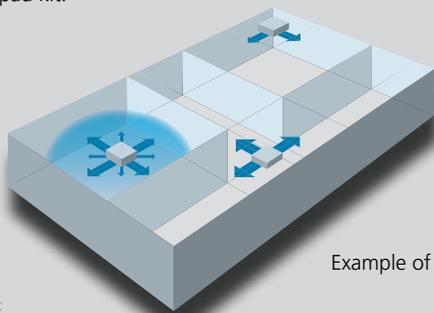

## Features and Benefits

- 360° airflow to reduce drafts and improve comfort
- Models range from 9 MBH to 48 MBH
- Improved flexibility with 23 different possible airflow patterns, ensuring ideal air distribution to maximize comfort and savings
- Lower air velocities for better room airflow distribution
- Reduced unit weight and improved efficiency with a light weight fan
- Stain resistant and easily cleanable decoration panel coating
- Silver ion antibacterial drain pan treatment
- 3 user selectable fan speeds (HH, H and L)

## Airflow directions

For air discharge in 2 or 3 directions, it is necessary to make field settings by remote controller and to close the air outlet(s). Refer to the section FIELD SETTING in the installation manual of the optional blocking pad kit.

Example of airflow patterns

## Application

- Retail
- Schools
- Offices
- Restaurants

# 2' x 2' 4-way Ceiling-mounted cassette

## FXZQ\_M7VJU

**Soft. Elegant. Customizable. Low-maintenance. Comfortable.**

From corner stores to offices and classrooms, our elegant ceiling-mounted cassette units provide low-noise, customizable comfort. Airflow can be sent in any of four directions, and the ability to shut down one or two sides allows for easy corner installation. For easier installation, units fit in a standard 2' x 2' ceiling grid.

Condensate pump as standard

Outside air integration possible

Filter included

### Application

- Retail
- Schools
- Offices

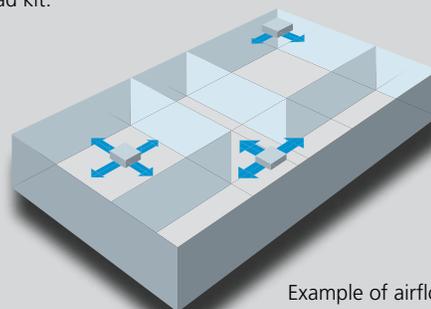

### Features and Benefits

- Sound pressure levels are as low as 29 dB(A)
- Space-saving depth of units requires only 11.6" of ceiling space
- Three auto-swing positions to choose from – standard, draft prevention and ceiling stain prevention
- Simple installation with an easy-to-fit decoration panel, easy height adjustment and a suction grille that can rotate up to 90°
- Easy-to-clean grille, washable long-life filter and optional high efficiency filters
- Trouble-free condensate pump inside the unit
- Models range from 7.5 MBH to 18 MBH

### Airflow directions

For air discharge in 2 or 3 directions, it is necessary to make field settings by remote controller and to close the air outlet(s). Refer to the section FIELD SETTING in the installation manual of the optional blocking pad kit.

# Wall-mounted Unit

## FXAQ\_PVJU

### Stylish. Compact. Convenient. Comfortable.

Our wall-mounted units are ideal for cooling or heating smaller zones such as hotel rooms, stores, small offices and restaurants. The compact, stylish design lets the unit blend discreetly into any interior design, and airflow can be sent in any of five different directions and programmed via remote control.

Filter included

### Features and Benefits

- Auto-swing mechanism ensures efficient air distribution via louvers that automatically close when the unit is turned off
- Wide air discharge outlet distributes a comfortable airflow throughout the entire space
- Horizontal louvers and front panel can be easily removed for cleaning
- Drain pipe can be easily hidden from sight
- Models range from 7.5 MBH to 24 MBH

### Application

- Retail
- Restaurants
- Offices
- Hotels
- Multi-family residences

# Ceiling Suspended Unit

## FXHQ\_MVJU

**Slim. Efficient. Quiet. Easy to Maintain.**

With its slim, elegant design, the FXHQ ceiling-suspended unit is a great fit for any light commercial space. Wide air openings provide a comfortable airflow and an innovative stream fan ensures quiet operation, making it ideal for retail stores, restaurants, classrooms and conference rooms.

Filter included

### Application

- Retail/Shops
- Offices
- Restaurants

### Features and Benefits

- One of our slimmest indoor units (less than 8") fits within any interior design
- Wide air discharge outlet distributes a comfortable airflow throughout the entire space
- Innovative stream fan technology keeps sound pressure levels low
- Installation is fast and optional drain-up kit can be added easily
- Bristle-free, non-dew flap and flat design make cleaning simple
- Long-life filter (maintenance-free for up to one year) is standard
- Models range from 12 MBH to 36 MBH

# Floor-Standing Units

## FXLQ\_MVJU9/FXNQ\_MVJU9

### Versatile. Logical. Durable. Quiet.

The ideal way to save space, our floor-standing units can easily be installed along a perimeter wall – or concealed. The air distribution from these models will allow you to find the right balance for classrooms, hospital rooms, office hallways or similar spaces.

Outside air integration possible (FXNQ)

Filter included

FXLQ

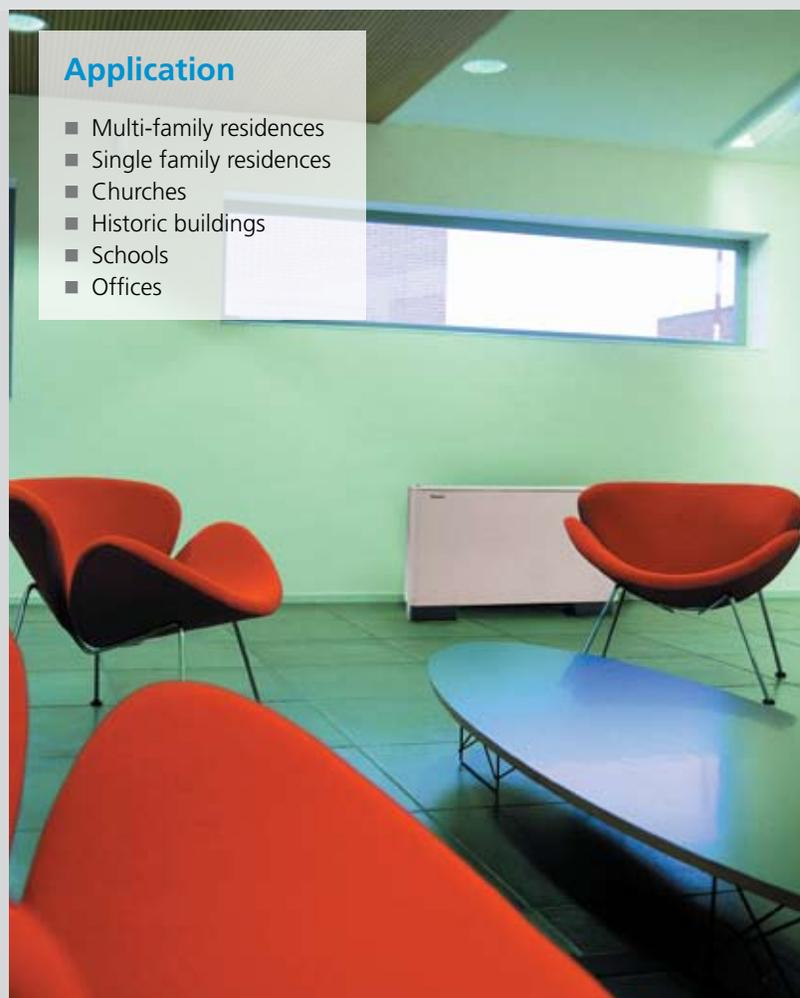

FXNQ

### Features and Benefits

- Ideal for installation beneath a window
- Unit requires minimal installation space
- Fitted with a washable long-life filter
- Remote-control options available
- Space-saving unit can be freestanding or wall-mounted, concealed or exposed
- Models range from 12 MBH to 24 MBH

### Application

- Multi-family residences
- Single family residences
- Churches
- Historic buildings
- Schools
- Offices

# 100% Outside Air Processing Unit

## FXMQ\_MFVJU

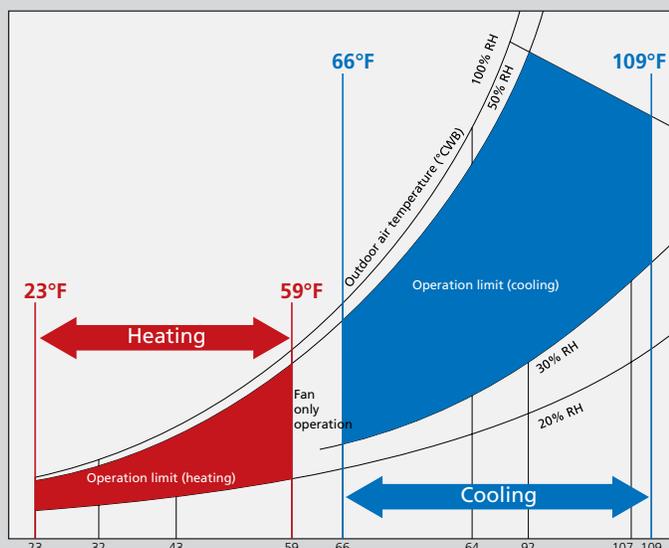

**Concealed. Powerful. Compact. Quiet. Fresh Air Quality.**

Both fresh air treatment and heating and cooling can be achieved successfully in a single system via heat pump technology without the usual design problems associated with balancing air supply and discharge. Fan coil units and outdoor air processing unit can be connected to the same refrigerant line, resulting in enhanced design flexibility and a significant reduction in total system costs.

### Operational Characteristics

When the suction air temperature is between 66°F and 109°F the Outside Air Processing Unit operates in cooling, and when between 23°F and 59°F, it operates in heating. The OA processing unit will work in energy saving fan only between 59°F and 66°F; this is not configurable.

### Features and Benefits

- Can be connected to all North American Daikin VRV systems
- Available in three capacities, nominal 48, 72 and 96 MBH
- The nominal airflow are 635, 988, and 1,236 CFM respectively
- External static pressure capabilities of up to 1.03" W.G. allows for flexibility with duct work and filtration choices
- The indoor unit is controlled to a set cooling and heating discharge air temperature allowing the flexibility to integrate with a standard Daikin indoor unit or duct directly to the space
- A low profile design of only 18.5" high reduces the required installation space and can eliminate mechanical rooms or additional structural supports associated with traditional OA systems
- Indoor Air Quality options include MERV 8 and 13 filters and filter boxes
- Connects directly and seamlessly into the Daikin local and centralized control suite

# FXMQ\_MFVJU Specifications

FXMQ_MFVJU Specifications		4-Ton	6-Ton	8-Ton
Model Name		FXMQ48MFVJU	FXMQ72MFVJU	FXMQ96MFVJU
Power Supply	V/ph/Hz	208-230/1/60		
Cooling Capacity	Btu/h	48,000	72,000	96,000
Heating Capacity	Btu/h	30,000	47,000	59,000
Airflow Rate	cfm	635	988	1,236
Unit Weight	lbs.	190	271	271
Unit Height	in.	18 1/2	18 1/2	18 1/2
Unit Width	in.	29 1/4	54 3/8	54 3/8
Unit Depth	in.	43 5/16	43 5/16	43 5/16
Sound Pressure	dB(A)	42	47	47
External Static Pressure	in. W.G.	0.88	0.96	1.03
Pipe Connections	Liquid	in.	3/8	3/8
	Gas	in.	5/8	3/4
External Finish		Galvanized Steel Plate		
Protection Devices		Fuse Fan Motor Thermal Protector		
Operating Range - Cooling	°F	66 DB/59 WB - 95 DB/90 WB		
Operating Range - Heating	°F	23 DB to 68 DB		
Discharge Air Temp. - Cooling	°F	55 - 77		
Discharge Air Temp. - Heating	°F	64 - 86		

## Connection Rules

- When the Outside Air Processing Unit (OA processing unit) is used in conjunction with standard indoor unit(s) on a single piping network, the total combined connected capacity ratio of standard indoor unit(s) and OA processing unit must be equal or within 50% and 100% of the capacity of the condensing unit. In addition, the connected capacity of the OA processing unit must be equal or less than 30% of the capacity of the condensing unit.
- When the condensing unit is dedicated to the OA processing unit, the connected capacity of the OA processing unit must be equal or within 50% to 100% of the capacity of the condensing unit.

Nominal Conditions:

### Cooling Mode

Discharge Set Temperature: 64 °F DB  
Outdoor: 91 °F DB, 82 °F WB (68% RH)  
Pipe Length: 25 ft.  
Level Difference: 0 ft.

### Heating Mode

Discharge Set Temperature: 77 °F DB  
Outdoor: 32 °F DB, 27 °F WB (50% RH)  
Pipe Length: 25 ft.  
Level Difference: 0 ft.

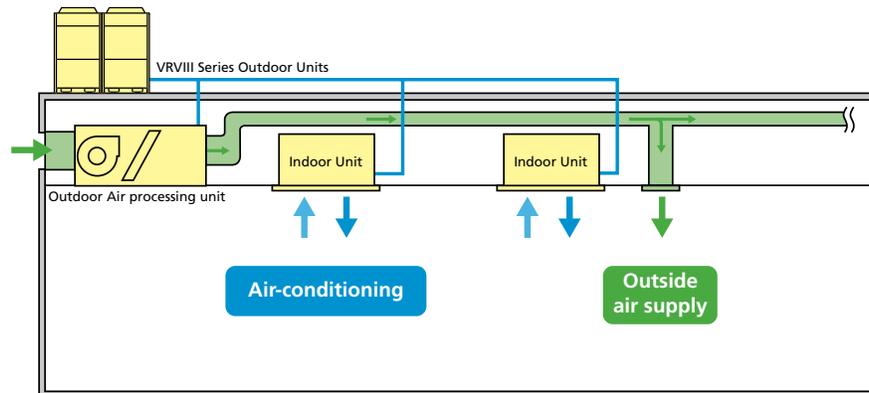

### Note:

Specifications are subject to change without notice.

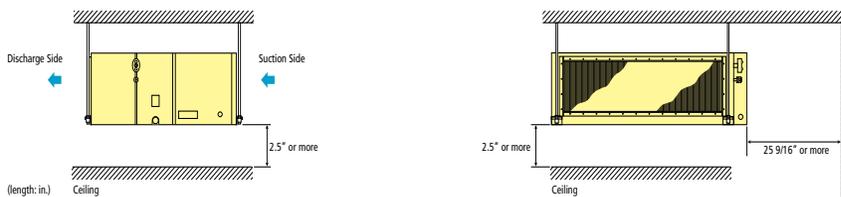

## FXMQ\_MFVJU Accessories

Model Name	FXMQ48MFVJU	FXMQ72MFVJU	FXMQ96MFVJU
Navigation Remote Controller	BRC1E71	BRC1E71	BRC1E71
Wireless Remote Controller	BRC4C82	BRC4C82	BRC4C82
Remote Sensor Kit	KRCS01-1B	KRCS01-1B	KRCS01-1B
Wiring Adaptor PCB (interface with aux/primary heater, humidifier, OA damper/fan)	KRP1B71	KRP1B71	KRP1B71
Group Control Adaptor PCB (connects to external BMS)	KRP4A71	KRP4A71	KRP4A71
High Efficiency Filter Kit (MERV 13)	DACA-MQ48F-13-1K	DACA-MQ96F-13-1K	DACA-MQ96F-13-1K
High Efficiency Filter Kit (MERV 8)	DACA-MQ48F-8-1K	DACA-MQ96F-8-1K	DACA-MQ96F-8-1K

## FXMQ\_MFVJU Installation Space

**WARNINGS:**

- Always use a licensed installer or contractor to install this product. Do not try to install the product yourself. Improper installation can result in water or refrigerant leakage, electrical shock, fire or explosion.
  - Use only those parts and accessories supplied or specified by Daikin. Ask a licensed contractor to install those parts and accessories. Use of unauthorized parts and accessories or improper installation of parts and accessories can result in water or refrigerant leakage, electrical shock, fire or explosion.
  - Read the User's Manual carefully before using this product. The User's Manual provides important safety instructions and warnings. Be sure to follow these instructions and warnings.
- For any inquiries, contact your local Daikin sales office.
