AMANA®
HEATING & AIR CONDITIONING

RELAX. IT'S AN AMANA BRAND.

R-32 MODELS

80% Gas Furnaces

Gas furnaces use natural gas to heat air as it moves through a series of ducts, which then is sent to your house via grilles and registers. Typically, homeowners don't get excited about having to replace their gas furnace. However, the idea of freezing in your home isn't too exciting either. Despite efforts to prolong its life, there may come a time when it is better to replace your furnace rather than repair it. The decision to replace often comes down to your current furnace's age, condition, and/or performance. Amana brand furnaces are efficient, reliable, and will bring your home warmth in the colder months for many years.

* Complete warranty available from your local dealer or at www.amana-hac.com. Limited Warranties vary by product model. To receive 10-Year Unit Replacement Limited Warranty, 10-Year Parts Limited Warranty, and 99-Year Heat Exchanger Limited Warranty, online registration must be completed within 60 days of installation. The duration of warranty coverage may depend on the state in which you reside. Some states and provinces do not allow warranty coverage to be conditioned on registration. For a list of states and provinces that do not allow warranty coverage to be conditioned on registration, please visit www.amana-hac.com/warranty-information or, to request a paper copy of this information, please call us at 1-855-502-3903. Changes in law, regulations, or technology may result in an equivalent unit not being available. Other limitations and exclusions apply, refer to complete warranty details for full list of limitations and exclusions, as well as rights and obligations should an equivalent unit not be available.

‡ One-time Unit Replacement coverage is available to the original homeowner for years 11-99 after the installation date through an *ASURE* Extended Service Plan. Complete details about the Extended Service Plan options available from your *ASURE* dealer.

† Sold in California only. All Ultra-Low NOx models comply with the 14 ng/J emission limit specified in the South Coast Air Quality Management District (SCAQMD) Rule 1111 and San Joaquin Valley Air Pollution Control District (SJVAPCD) Rule 4905. Learn more at www.aqmd.gov and www.valleyair.org.

** Compatibility with the Amana Brand smart thermostat and other Amana Brand communicating equipment.

◊ All models are eligible for installation in Colorado and comply with the 14 ng/J NOx emission limit in the HB23-1161 rule

Additional information
