RELAX. IT'S AN **AMANA** BRAND.

R-32 MODELS

90%+ Gas Furnaces

Gas furnaces use natural gas to heat air as it moves through a series of ducts, which then is sent to your house via grilles and registers. Typically, homeowners don't get excited about having to replace their gas furnace. However, the idea of freezing in your home isn't too exciting either. Despite efforts to prolong its life, there may come a time when it is better to replace your furnace rather than repair it. The replace decision often comes down to your current furnace's age, condition, and/or performance. Amana brand furnaces are efficient, reliable, and will bring your home warmth in the colder months for many years.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home), the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), and the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. The duration of warranty coverages in Texas differs in some cases.

† Sold in California only. All Ultra-Low NOx models comply with the 14 ng/J emission limit specified in the South Coast Air Quality Management District (SCAQMD) Rule 1111 and San Joaquin Valley Air Pollution Control District (SJVAPCD) Rule 4905. Learn more at www.aqmd.gov and www.valleyair.org.

** Compatibility with the Amana brand smart thermostat and other Amana brand communicating equipment.

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

R32

WARNINGS:

It is recommended to use best practices and always adhere to safety protocols before, during, and when working with any refrigerants.

DO NOT MIX REFRIGERANTS

- Per current US EPA SNAP approvals, A2L refrigerants can only be used in new equipment and CANNOT be used to retrofit a different refrigerant into an existing system. Always use the same refrigerant marked on the nameplate.
- Codes are rapidly changing and allowing A2L refrigerants throughout North America. Check with your local Daikin Comfort Technologies Distributor for latest product availability information.
