Heating & Air Conditioning Amana

RELAX. IT'S AN **AMANA** BRAND.

R-410A AND NEW R-32 MODELS

Split System Air Conditioners

Amana brand central air conditioning systems are designed to be perfect for any home. Even on the hottest days of the year, they can keep a home cool and comfortable. Don't choose between performance, durability, and optimum cooling comfort. Install an Amana brand air conditioner and get all three. As you review the various Amana brand air conditioners, remember that higher SEER2 numbers reflect the more energy-efficient systems. For the greatest energy-efficiency savings, select an air conditioning system with the highest SEER2 rating.

‡ Supplied with filter drier loose and requires field installation by contractor

[2] **ENERGY STAR**® and the **ENERGY STAR** mark are registered trademarks owned by the U.S. Environmental Protection Agency. **ENERGY STAR** products are third-party certified by an EPA-recognized Certification Body. Products that earn the **ENERGY STAR** prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR** criteria. Ask your contractor for details or visit www.energystar.gov.

† *ComfortBridge*™ compatible on furnace and MBVC match-ups *ComfortNet*™ compatible on AVPEC Air Handler match- ups

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

R32

WARNINGS:

It is recommended to use best practices and always adhere to safety protocols before, during, and when working with any refrigerants.

DO NOT MIX REFRIGERANTS

- Per current US EPA SNAP approvals, A2L refrigerants can only be used in new equipment and CANNOT be used to retrofit a different refrigerant into an existing system. Always use the same refrigerant marked on the nameplate.
- Codes are rapidly changing and allowing A2L refrigerants throughout North America. Check with your local Daikin Comfort Technologies Distributor for latest product availability information.
