

Coils

Having a high-efficiency evaporator coil is a prime way to get the highest level of comfort from your central air conditioning or heat pump system. Amana brand offers a range of all-aluminum evaporator coils that are known for their durability and efficient performance. Built using aluminum tubing, fins, and end plates to provide reliable, time-tested heat transfer properties, Amana brand coils help improve the overall performance of the air conditioning or heating system. Amana brand coils offer a single metal solution aimed at enhancing the longevity and effectiveness of Amana brand systems.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Unit Replacement Limited Warranty and the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in Florida, California or Quebec. The duration of warranty coverages in Florida and Texas differs in some cases.

** Compatible with Amana brand S-series side discharge inverter outdoor unit. Modular blower MBVC**00 models are the ONLY ones compatible with the Amana brand S-series outdoors.

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

WARNINGS:

It is recommended to use best practices and always adhere to safety protocols before, during, and when working with any refrigerants.

DO NOT MIX REFRIGERANTS

- Per current US EPA SNAP approvals, A2L refrigerants can only be used in new equipment and CANNOT be used to retrofit a different refrigerant into an existing system. Always use the same refrigerant marked on the nameplate.
- Codes are rapidly changing and allowing A2L refrigerants throughout North America. Check with your local Daikin Comfort Technologies Distributor for latest product availability information.

A DAIKIN BRAND
