

The first smart thermostat to offer full two-way communications with Daikin communicating HVAC systems

The Daikin *ONE+* smart thermostat is an intelligent home air controller from the world's leading heating, ventilating, and air conditioning (HVAC) manufacturer. It is a cloud-connected hub of sophistication, integrated for controlling temperature, humidity, and air quality.

- 1 **The high-resolution color touch screen display** is protected by the same toughened glass used in smart phones.

A number of screen savers are available, including this analog clock.

- 2 **The anodized aluminum bezel and dial** are precision manufactured. The surfaces have a fine bead blast with a warm hued anodized finish. The dial rotation is extraordinarily smooth because it rests on a bearing assembly typically found in precision instruments. A switch behind the dial enables users to return to the home screen from any menu with a single tap.

Turning the dial changes the temperature set-point.

- 3 **An integrated Wi-Fi radio** connects to the internet (via a home router) to the cloud and on to the homeowner's mobile app. The *Skyport* cloud will also seamlessly integrate with open smart home architectures, including Amazon Alexa and Google Assistant, enabling consumers to effortlessly use features such as voice control.

- 4 **A thin LED light bar** sits flush within the bottom surface and runs from edge to edge, delicately illuminating the wall beneath. Emitting a soft emotive glow, the light bar indicates the current system mode: red for heating, blue for cooling.

- 5 **Built-in bubble level** aids professional installation.

The **home screen** displays the current temperature, the current system mode, and adjustment slider, as well as icons leading to the top level screens.

The **schedule screen** displays upcoming set-point changes and scheduled times. It also offers access to edit mode, where you can adjust the schedule.

The **away screen** displays energy saving set-points. Energy saving can be invoked manually or automatically when the mobile app recognizes everyone is away.

The **air quality screen*** displays indoor air quality levels when a Daikin *ONE* home air monitor is connected. Outdoor air quality and weather will be displayed when connected to the internet and thermostat added in the mobile app under home location.

*Actual screen may vary for different indoor unit models. The Daikin *ONE* home air monitor only works with ducted units.

The One for Connectivity

The Daikin *ONE+* smart thermostat is a cloud-connected hub of sophistication, designed for controlling temperature, humidity, and air quality. With a variety of connectivity options, there's a comfort solution for every project and customer.

	Type	Compatible Family (Models starting with)
R-32 Unitary Split Systems	Outdoor Unit	DC_VS, DC7TC, DH_VS, DH_TC
	Air Handling Unit	D_VE, A_VE
	Coil	CAPE, CHPE
	Modular Blower	MBVK
	Gas Furnace	DR_MC, DR_SC, DD_SC, DD_MC, DR_TC, DD_TC

Indoor Air Quality	Daikin <i>ONE</i> Home Air Monitor (Only compatible with ducted units)
---------------------------	--

	Type	Compatible Family (Models starting with)
Ductless Mini & Multi-Split Systems	R-32 12RC Indoor Units	CMXV
	R-410A S21 Indoor Units ¹	CDXS, CTXS ² , FDXS, FTK ² , FTXB ² , FTXF ² , FTXG ² , FTXO9_12N ² , FTX15_18_24N ³ , FTXR, FTXS, FVXS ³
	R-410A P1/P2 Indoor Units ¹	CDMQ, FDMQ, FFO

¹ Must purchase and install communication adaptor DAPT-ONE-VMS

² Must purchase S21 adaptor KRP067A41E

³ Must purchase S21 adaptor KRP980B2E

⁴ The Sarara drying function of the *QUATERNITY* units is not supported with Daikin *ONE+* smart thermostat, but the dehumidification function of the Daikin *ONE+* can be used with the *QUATERNITY* indoor units.

	Type	Compatible Family (Models starting with)
SkyAir and VRV Systems⁴	R-410A VRV Indoor Units	FXAQ, FXDQ, FXFQ, FXLQ, FXMQ, FXNQ, FXSQ, FXZQ
	R-410A SkyAir Indoor Units	FAQ, FBQ, FCQ, FHQ, FTQ

⁴ Must purchase and install communication adaptor DAPT-ONE-VMS

A full-featured mobile companion app is available for Android and iOS.

Control is available through popular voice-activated speakers.
