

# Ventilating Dehumidifier

## DV155

**CLEAN COMFORT™**  
INDOOR AIR ESSENTIALS

The Clean Comfort™ DV155 is a whole-house ventilating dehumidifier designed to remove up to 155 pints of water per day and provides effective air filtration (MERV 11).

The DV155 is suited for homes up to 3,500 sq. ft., and can be used in three different configurations:

- Connected directly to a home's forced air HVAC system,
- Installed with dedicated ducting, or
- Operated as a freestanding appliance.

### Specifications

When used with a Clean Comfort DVP Series multifunction control, the DV155 can work with mechanical ventilation to bring fresh air into the home according to a user-programmed schedule.

The DV155 features a well-insulated, compact horizontal cabinet for quiet operation and installation flexibility. It can be installed in mechanical rooms, closets, attics, basements and crawlspaces.

When connected to a home's HVAC ductwork, the Clean Comfort DV155 dehumidifier helps control humidity levels to a comfortable level throughout the whole home, compared to portable dehumidifiers that only dehumidify the area close to where they're located.

### Optional Parts List:

#### Clean Comfort DV155 Dehumidifier

| Part No.           | Description                                                        |
|--------------------|--------------------------------------------------------------------|
| <b>DVP-4034748</b> | Digital Control                                                    |
| <b>DVP-4034753</b> | Digital Control with remote                                        |
| <b>DVP-4034737</b> | 6" Duct Damper, Motorized for DV070, DV090 and DV155 dehumidifiers |
| <b>DVP-4034742</b> | 10" Backdraft Gravity Damper for DV090 and DV155 dehumidifiers     |
| <b>DVP-4034744</b> | 10" Oval to Round Adapter for DV155 dehumidifier                   |
