

Description

The Daikin ONE+ smart thermostat is an intelligent home air controller from the world's leading heating, ventilating, and air conditioning (HVAC) manufacturer. It is a cloud-connected hub of sophistication, integrated for controlling temperature, humidity, and air quality.

Standard Features

- The high-resolution color touch screen display is protected by the same toughened glass used in smart phones.
- The anodized aluminum bezel and dial are precision manufactured. The surfaces have a fine bead blast with a warm hued anodized finish. The dial rotation is extraordinarily smooth because it rests on a bearing assembly typically found in precision instruments. A switch behind the dial enables users to return to the home screen from any menu with a single tap.
- An integrated Wi-Fi radio connects to the internet (via a home router) to the *Skyport* Cloud and on to the *SkyportHome* app. The *Skyport* cloud will also seamlessly integrate with open smart home architectures, including Amazon Alexa and Google Assistant, enabling consumers to effortlessly use features such as voice control.
- A thin LED light bar sits flush within the bottom surface and runs from edge to edge, delicately illuminating the wall beneath. Emitting a soft emotive glow, the light bar indicates the current system mode: red for heating, blue for cooling.
- A number of screen savers are available, including an analog clock.
- Built-in bubble level aids professional installation.

Technical Specifications

- Analog dial
- Capacitive touch screen
- Backlit, 3.5 inch MVA TFT LCD display
- Bi-directional communications protocol for controlling HVAC system
- Bubble level (to aid installation)
- 640 × 480 pixels × 24 bit RGB (full color screen)
- Light bar indicates heating or cooling
- Wi-Fi

Product Dimensions

- Length: 6¾ inches
- Height: 3⅝ inches
- Depth: 1⅜ inches
- Weight: 10.5 ounces

Part Numbers

- DTST-CWBSA-NI-A
- DTST-CWBSA-NI-B
